## 📄 PROFILE

Experienced PHP Laravel Developer with a strong background in developing and maintaining web applications. Proficient in PHP, Laravel, and MySQL, with a solid understanding of front-end technologies including HTML, CSS, and JavaScript. Skilled in optimizing application performance, ensuring code quality through rigorous testing and debugging, and collaborating with cross-functional teams to deliver robust and scalable solutions. Committed to continuous learning and staying updated with the latest industry trends and technologies.

## 🎓 EDUCATION

### Techno engineering College Banipur

Bachelor of Technology

08/2016 – 07/2020 | Kolkata, India

Stream:- Mechanical engineering

Dgpa:7.65

### A S Patna Central School

Intermediate(12th)

2016 | Patna, India

Stream - PCM

Percentage - 68%

### A S Patna Central School

matriculation(10th)

2014 | Patna, India

Percentage - 87.4%

## 📁 PROFESSIONAL EXPERIENCE

04/2022 – present  
Hydrabad, India

### Einsicht Technologies

Software Developer (PHP Laravel)

- Developed and maintained web applications using PHP and MySQL.
- Assisted in writing clean, efficient, and well-documented code.
- Worked on front-end technologies including HTML, CSS, Bootstrap and JavaScript to create responsive web pages.
- Participated in code reviews and followed best practices for web development.
- Collaborated with cross-functional teams to understand project requirements and deliver high-quality solutions.
- Engaged in continuous learning to stay updated with the latest web development trends and technologies.

present  
Hydrabad, India

### Einsicht Technologies

Software Test Engineer (Manual Testing)

- Conducted extensive manual testing to ensure the reliability, performance, and functionality of the CRM tool.

- Designed, developed, and executed test cases and test plans based on project requirements and specifications.
- Collaborated with the development team to identify, document, and troubleshoot defects, ensuring timely resolution.
- Participated in regular sprint planning and review meetings to align testing activities with project milestones.
- Prepared detailed test reports and documentation, providing insights and feedback for continuous improvement.
- Ensured compliance with quality standards and best practices throughout the software development lifecycle.

## PROJECTS

04/2022 – present

### **Customer Relationship Management Tool**

- Overview: Actively engaged in the development and maintenance of a CRM tool for a German client. The CRM system manages and tracks customer records related to SIM cards and tariffs, smartphones, landline connections with associated tariffs and devices, as well as data line connections with their respective tariffs and devices.
- Responsibilities:
  - Performed comprehensive manual testing to ensure the quality and functionality of the CRM tool.
  - Contributed to the development tasks using PHP and the Laravel framework, enhancing the CRM tool's features and resolving technical issues.
  - Collaborated closely with cross-functional teams to deliver a robust and user-friendly CRM solution.
  - Assisted in documenting and troubleshooting issues, ensuring seamless integration and operation of the CRM system.
  - Developed and implemented features to create offers for services targeted at both new and existing customers.

## SKILLS

### Manual Testing ● ● ● ● ●

- Test Planning and Execution: Develop and execute detailed test plans and strategies to ensure software quality.
- Test Case Management: Write, manage, and organize comprehensive test cases using test management tools.
- Defect Tracking: Identify, document, and track defects through defect tracking tools(Jira) to ensure timely resolution.
- Functional and Regression Testing: Perform functional tests to verify requirements and conduct regression tests to ensure stability after changes.
- Integration and System Testing: Validate the integration and overall system functionality of different modules.
- User Acceptance Testing (UAT): Plan and execute UAT to ensure the software meets business requirements.
- Analytical Skills: Strong analytical abilities to identify potential issues and root causes.

### HTML, CSS and Bootstrap ● ● ● ● ●

#### Automation Testing Using Selenium With Java

Better knowledge in Selenium Web Driver automation tool in Java platform.

Have good exposure on writing test script using Locators.

Utilize TestNG as unit testing tool.

### PHP Laravel ● ● ● ● ●

- Proficient in Laravel Framework:
  - Developed robust web applications using Laravel, adhering to MVC architecture principles.
  - Designed and implemented RESTful APIs for seamless client-server communication.
- Database Management:
  - Utilized Eloquent ORM for efficient database interactions and complex query building.
  - Designed database schemas, performed migrations, and managed seeding operations.
- Blade Templating Engine:
  - Created dynamic and reusable views using Laravel's Blade templating engine.
  - Implemented front-end features with Blade components, layouts, and partials.
- Authentication and Authorization:
  - Configured and managed user authentication using Laravel's built-in authentication system.
  - Implemented role-based access control (RBAC) to secure application resources.
- Middleware and Routing:
  - Developed custom middleware for handling application-specific logic.
  - Managed complex routing scenarios, including route groups, resource routes, and route model binding

### Core Java ● ● ● ● ●

Good Knowledge on OOPS Concept's abstraction, encapsulation, inheritance, and polymorphism

## COURSES

### Software Testing

Qsiders

09/2022 – 03/2023 | Bengaluru, India

## LANGUAGES

English | Hindi | Bengali

## INTERESTS

- Online PC Gaming
- Driving Cars and Riding Bikes

## DECLARATION

I hereby declare that all the information furnished above is true & correct to the best of my knowledge & belief.
