PROJECTS

Apr 2022 — Jul 2024

Customer Relationship Management Tool
Hyderabad

Overview:

- Actively engaged in the development and maintenance of a CRM tool for a German client. The CRM system manages and tracks customer records related to SIM cards and tariffs, smartphones, landline connections with associated tariffs and devices, as well as data line connections with their respective tariffs and devices.

Responsibilities:

- Performed comprehensive manual testing to ensure the quality and functionality of the CRM tool.
- Contributed to the development tasks using PHP and the Laravel framework, enhancing the CRM tool's features and resolving technical issues.
- Collaborated closely with cross-functional teams to deliver a robust and user-friendly CRM solution.
- Assisted in documenting and troubleshooting issues, ensuring seamless integration and operation of the CRM system.
- Developed and implemented features to create offers for services targeted at both new and existing customers.
